(Med. Primary Care & Walk-In Care) | Can your staff help patients get enrolled with medical insurance or refer them for help to get medical insurance?  
Yes. Our clinics have an Enrollment and Eligibility Specialist on site who is available to answer any questions they may have. We will try to enroll families, or at least children, in Washington Apple Health at the time of appointment. | Can walk-in patients get immunizations that day?  
Do they need to become patients of your clinic to do so?  
At our two Walk-In Clinics located at the Lynnwood and Everett-Central Clinics, children can show up during clinic hours and wait to be seen for a new patient appointment for their immunizations.  
Yes. After this initial appointment, they will be considered CHC patients and can choose any CHC location as their medical home. It is important to establish care with a medical provider so you can ask questions regarding your health care in the future. | Is there any cost involved with immunization visits or immunizations given as part of a well child visit to Washington Apple Health enrollees?  
Washington Apple Health only covers well child checks (WCC) on an incremental basis. We will work with the patient to see if a WCC is due or not. If a WCC is not needed, the immunizations will be given at no cost. | For families without medical insurance, and not wishing to enroll, can children and adults receive immunizations and pay according to a sliding fee schedule?  
Would they have to become a clinic patient?  
Yes, but we will ask the families, or at least for the children, to enroll in Washington Apple Health at the time of appointment.  
If not insured, CHC patients can be billed on a sliding fee scale for services received. |

| **International Community Health Services**  
16549 Aurora Avenue N  
Shoreline, WA 98133  
(206) 533-2600 | Can your staff help patients get enrolled with medical insurance or refer them for help to get medical insurance?  
ICHS can provide walk-in immunizations for flu and Tdap to adult patients only, regardless of their status as an established patient. For minor patients or for other immunizations, all new patients need to be fully registered and see an ICHS provider before getting immunizations. | Yes.  
ICHIS can provide walk-in immunizations for flu and Tdap to adult patients only, regardless of their status as an established patient. For minor patients or for other immunizations, all new patients need to be fully registered and see an ICHS provider before getting immunizations. | Yes, as long as their Washington Apple Health coverage is active, there is no cost for preventative procedures, including recommended immunizations. | For families without medical insurance, and not wishing to enroll, can children and adults receive immunizations and pay according to a sliding fee schedule?  
Would they have to become a clinic patient? |
| **Sea Mar Everett**  
1920 100th ST SE, Bldg. B  
Everett, WA 98208  
(425) 312-0202 | Yes. A Customer Services Representative is available to assist patients with insurance eligibility and enrollment needs. The Rep can explain the benefits that each company has to offer. | Yes. A Customer Services Representative is available to assist patients with insurance eligibility and enrollment needs. The Rep can explain the benefits that each company has to offer.  
Yes. The first visit can be as a nurse only vaccine visit. For children, we ask that they become established patients and schedule an appointment for follow up care with a primary care provider. | For patients who have active Washington Apple Health coverage, there is never an out-of-pocket cost for immunizations. | Patients without insurance can apply for the ICHS sliding fee if they wish. Fees and discount levels are determined by a federally mandated sliding fee scale, based on family size and income level.  
Patients should bring proof of income so we can determine their level of discount. |
| **Sea Mar Marysville**  
9710 State Avenue  
Marysville, WA 98270  
(360) 653-1742 | Yes. A Customer Services Representative is available to assist patients with insurance eligibility and enrollment needs. The Rep can explain the benefits that each company has to offer. | Yes. A Customer Services Representative is available to assist patients with insurance eligibility and enrollment needs. The Rep can explain the benefits that each company has to offer.  
Yes. We have standing orders for our nurse to do immunizations. They do need to register as a patient because we need to have a chart on them to document the vaccines. | No. If they have active Washington Apple Health coverage, they receive vaccines at no cost. | Yes. Both adults and children can receive immunizations and be billed according to a sliding fee scale. We will register them to document the visit. Children are asked to become our patients and establish care with a primary care provider. |
| **Sea Mar Monroe**  
17707 W Main Street  
Monroe, WA 98272  
(360) 282-3885 | Yes. A Customer Services Representative is available to assist patients with insurance eligibility and enrollment needs. The Rep can explain the benefits that each company has to offer. | Same day appointments are available. We can provide immunizations on a walk-in basis to established patients. New patients would need to establish care with the providers the same day if appointments are available. | There is no charge for immunizations given as part of well child check appointments for patients who have Washington Apple Health coverage. | Yes. They would need to register as our patient in order to qualify for the sliding fee scale. |
