

WATER SAMPLING FOR BACTERIOLOGICAL QUALITY

TO: General Public

SUBJECT: Water Sampling for Bacteriological Quality

The Snohomish Health District (SHD) will distribute water sample containers for bacteriological analysis and deliver completed samples to a private water laboratory for analysis. Laboratory analysis results will be forwarded by SHD to the address noted on the sample analysis form. When you pick up a sample container, you will be given a water sample analysis form that will accompany your sample to the laboratory. Please fill out the form completely. **Procedures for taking the sample are noted on the back of the sample analysis form.** If you have any questions regarding water sampling procedures, please call 425.339.5250.
