

Prevent Unwanted Access To Your Pool

IMPORTANT BARRIER REMINDERS

1 **Gates** must self-close and latch from all positions. Ensure nothing is propping the gate open.

2 **Latches** must be in good working order and be at least 60 inches high or continuously locked.

3 **Barriers** cannot have anything placed outside that can be used as a climbing feature (ex: chairs, trees, garbage cans).

For more information regarding pool safety requirements, please contact the Snohomish Health District at 425-339-5250.
