Lunch and Snack Ideas for Toddlers

Ensure foods are safe for your child! Never serve toddlers raw carrots, grapes, raw apple, raisins, popcorn, or hotdogs.

Keeping Lunches Safe

Keep children’s food safe by following these simple guidelines.

- Make sure to wash hands with soap and running water before preparing food.
- Always prepare food using clean equipment and a clean, sanitized work area.
- Use clean plastic containers or zip-loc bags.
- Chill foods to be kept cold before packing with a freezer pack.
- Add a freezer pack to keep foods cold until lunch. Use commercial gel packs, ice cubes in a leak-proof container, or frozen juice box.
- Remember that during field trips, lunches may be kept in a hot vehicle and a freezer pack will not keep foods cold enough. Pack non-perishable items if possible.

Examples of foods that must be kept cold:

- Sliced meat sandwich
- Tuna, egg, or chicken salad
- Milk, soft cheeses, or yogurt
- Cooked vegetables or fruits
- Cut melons
- Most other perishables taken from the refrigerator

Examples of foods don’t need to stay cold:

- Cookies, crackers, or chips
- Breads and cereals
- Fresh fruit in the peel
- Canned fruit or vegetables
- Canned pudding or applesauce
- Hard & cream cheese
