

How Do I Make A Referral?

A referral can be made by families, schools, health care providers, and other organizations. Please contact our office if you know of a family with an eligible child that would benefit from contact with a CYSHCN Public Health Nurse.

Children & Youth With Special Health Care Needs

What is the Children and Youth with Special Health Care Needs (CYSHCN) Program?

CYSHCN is a federally and state-funded Title V Maternal–Child Health Bureau program offered through Snohomish Health District. CYSHCN program staff work in the community and with families so that:

- Health care and other needed services are accessible and family-centered.
- Families know how and where to get the services and supports they need.

What do the CYSHCN Public Health Nurses do?

- They work with health care providers and other organizations to improve services and systems in the community supporting children and youth with special health care needs.
- They talk with families to assess a child's needs and connect to needed services.

Who is eligible for CYSHCN Public Health Nurse services?

- Children birth up to 18 years of age.
- Children who are at increased risk of serious chronic physical, developmental, behavioral or emotional conditions.
- Children who require health and related services of a type or amount beyond what is generally required.
