

# Diapering Instructions

Wash hands with soap and water. *Disposable gloves are optional.* Gather materials and have them within reach. *Cover surface with paper (if used).*

Place child on changing station and remove diaper. *Always maintain contact with the child.*

Clean child's bottom with wet wipes. *Wipe front to back with one clean wet wipe for each stroke.*

Discard dirty items (diaper wipes, paper) in a hands-free, covered container.

Remove dirty gloves using proper glove removal procedure and discard.

Wipe your hands with a wet wipe, *or wash hands at the sink if contact with the child can be maintained.*

Diaper and dress the child. *If necessary, use a fresh glove to apply diaper cream. Discard glove.*

Wash the child's hands with soap and water. *For very young infants, a wet wipe may be used.* Return child to a safe area.

Clean changing surface and any items you touched. Rinse with water, then disinfect following product instructions. *Allow adequate contact time.*

Wash your hands with soap and water. Turn off faucet with a paper towel. *Record observations on the diaper log.*
