Administration
Letter to Schools – COVID Prevention Reminders
September 17, 2021

Dear School Community,

As you know, COVID-19 is an ongoing public health emergency. The health and safety of our students, staff, and community is our top priority. We are committed to providing a safe and healthy learning environment for all.

In order to mitigate the spread of COVID-19, we are implementing the following prevention measures:

- **Daily Health Screenings:** Students and staff are required to complete a daily health screen before coming to school. This includes checking for fever, cough, shortness of breath, and other COVID-19 symptoms.

- **Mask Wearing:** Masks are required in all school settings, including classrooms, hallways, and restrooms.

- **Social Distancing:** Students and staff are encouraged to maintain physical distance of at least six feet from others.

- **Frequent Hand Washing:** Hand washing and sanitizing stations are available throughout the school to promote good hygiene practices.

- **Cleaning and Disinfecting:** Regular cleaning and disinfecting of high-touch surfaces and common areas is being performed.

- **Contact Tracing:** We have implemented a contact tracing system to identify close contacts and initiate isolation strategies.

- **Testing:** Regular testing is being conducted for students and staff who exhibit symptoms or have been exposed to COVID-19.

We ask that you support these efforts by:

- Encouraging your students to stay home if they are feeling ill.
- Monitoring your child's health and reporting any symptoms.
- Salmon

Thank you for your cooperation and commitment to keeping our school community healthy and safe.

Sincerely,

[Signature]

Letter to Schools – COVID Prevention Reminders
September 17, 2021

* PPE: All schools must ensure that adequate PPE (personal protective equipment) is available and distributed to all staff and students.

* 12-17 year old students are eligible for COVID-19 vaccines. Parents or guardians must sign consent forms for minors to receive the vaccine.

* Parents and guardians are encouraged to visit the school's website for updates and information on PPE availability.

* The district is committed to providing ongoing training and support to schools to ensure the effective implementation of health and safety protocols.

* Through collaboration with community partners, the district will continue to provide resources and guidance to schools to help them navigate the challenges of the pandemic.

* Teachers and staff are urged to remain vigilant in monitoring and reporting any symptoms of illness.

* The district thanks all teachers and staff for their hard work and dedication in keeping our schools safe.
