The Children’s Hope Scale is an assessment of agency (the ability to initiate and sustain action towards goals) and pathways (capacity to find a means to carry out goals).

Child Hope Scale Questions
How much of the time do each of these statements apply?

Children’s Hope Scale Rating
Most students score as highly hopeful or moderately hopeful!

Adverse Childhood Experience Scale (ACEs)
Snohomish County vs Washington State

The Washington HYS Adverse Childhood Experiences Scale (WAH-ACEs) is a set of 11 ACEs questions, each question corresponding to a point on the scale. A higher score indicates a greater number of these severe childhood stressors. Research has shown that these stressors can influence physical, mental, social, and behavioral health across the lifespan.
