

# HEALTHY YOUTH SURVEY 2021

## Marijuana Use

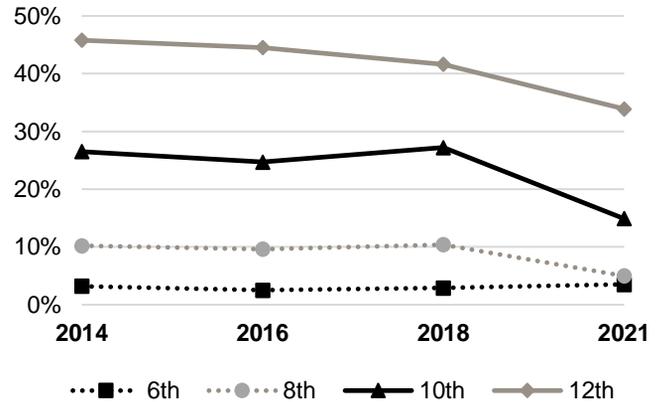

**SNOHOMISH**  
HEALTH DISTRICT  
WWW.SNOHD.ORG

Recent (last 30 days) marijuana use among youth has continued a **downward trajectory**.\*

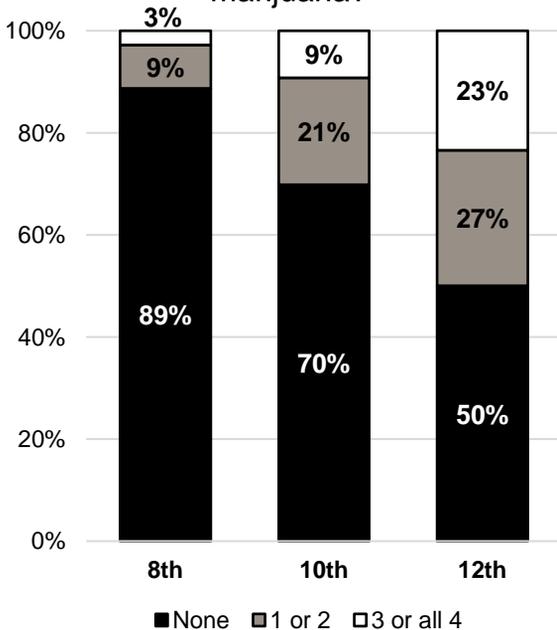

Reports of ever having tried marijuana have been steady over the years, with a **small decrease in 2021**.\*

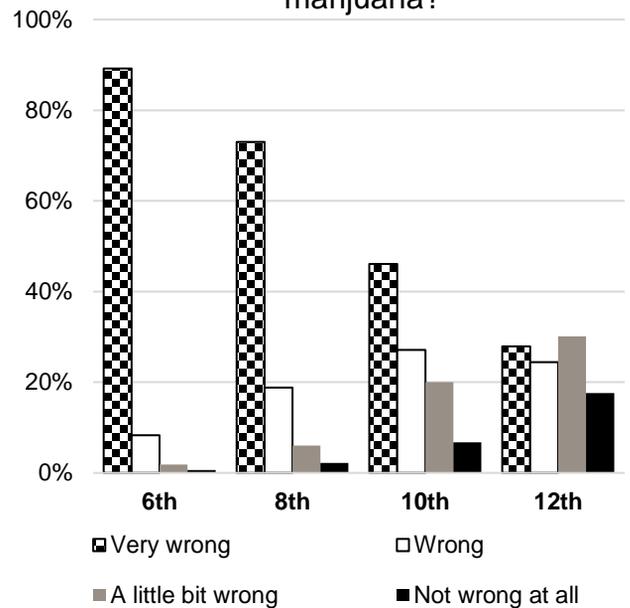

While most Students report not having used marijuana in the last 30 days, those who did most often smoked or vaped.

In the past year, how many of your 4 closest friends have used marijuana?

How wrong do you think it is for someone **your age** to use marijuana?

Almost all 6<sup>th</sup> and 8<sup>th</sup> graders believe it is *wrong* or *very wrong* for someone their age to use marijuana; attitudes among 10<sup>th</sup> and 12<sup>th</sup> graders are more divided.

\*These, among other differences seen in 2021, could be an artifact of changes to daily life during the pandemic. For more information, please visit [www.askhys.net](http://www.askhys.net) and [www.snohd.org/hys](http://www.snohd.org/hys)
