

What's in the Room?

Color the pictures below, and count the number of things in each room. Have a grown-up help you count the things where you live!

Bathroom

GROWN-UPS: Consider a non-skid mat if the floor is slippery. Also check the temperature of your water heater and make sure it is set no higher than 140° F.

GROWN-UPS: When cooking, make sure handles of pots and pans don't stick out where children can accidentally pull them off the stove.

Living Room

GROWN-UPS: TVs and cabinets should be securely attached to the wall so they won't fall over. Keep clutter to a minimum to avoid trips and falls. If you live in an older home and have a young child, check for lead paint.

GROWN-UPS: Cords from window blinds should be out of reach of little hands, and windows should have locks to prevent falls. Carbon monoxide detectors may be plugged into outlets but have battery backup.
